TERMS AND CONDITIONS OF MOORING APPLICATION

2. Eligibility & management of moorings

2.1 Private Moorings

2.1.1 Private moorings shall be offered on an annual seasonal basis, April to September inclusive, firstly to existing mooring holders, then from the waiting list to local people (in line with the local definition) then from the waiting list for a temporary mooring for those outside the local area.

2.1.2 Existing Private mooring holders who live out of area shall continue to be offered moorings until such time they relinquish the mooring. No transfer is permitted without the Local requirement.

2.1.3 The mooring holder must have the majority interest in the vessel on the mooring (which must be documented) and be the main policy holder on the insurance policy. In case of partnerships, all partners should be named on the insurance policy.

2.1.4 Private moorings are not transferable. However, under exceptional circumstances, such as a mooring holder in partnership who wishes to sell his interest to one of his partners; an application in writing can be made to the Harbour Master who may exercise his discretion to approve such a transfer if he is satisfied that the arrangement is a genuine syndicate. The partner must meet the local definition and been in the partnership for a documented minimum of 3 years. Any approved transfer will be subject to an administration fee. Where a partnership has held a mooring in the harbor prior to 2012, a request to transfer a mooring to an existing partner who resides outside the local area may be considered by the Harbour Master if he is satisfied it's a genuine syndicate. Only one transfer outside the area will be considered. All other transfers must meet local definition.

2.1.5 Any mooring confirmed not in use may be allocated by the Harbour Master for temporary use by another vessel. Temporary moorings shall be offered to mooring waiting list holders in the first instance and declining to accept a temporary mooring shall not count as a refusal to accept a mooring. This does not supersede the 2-year rule.

2.1.6 Private mooring holders may occupy their mooring outside the specified season only with the permission of the Harbour Master. Please refer to the current Harbour Dues & Charges which are available at the Harbour office or at [Bridport Harbour, West Bay in Dorset](#) or [Lyme Regis Harbour in Dorset](#)

2.1.7 Winter storage is available with the Harbour Master's permission from 1st October – 31st March and will be charged in accordance with the current Harbour Dues and Charges.

2.2 Commercial Moorings

2.2.1 Commercial moorings may be offered /let on an annual basis, April to March to the existing mooring holder in the first instance and then as priority from the waiting list based on size of mooring available and suitability of the applicant's craft.

2.2.2 The mooring holder must have a majority interest (which must be documented) in the boat on the mooring and be the main policyholder on the insurance policy, which must be provided with the mooring application. Sub letting of moorings will not be permitted. Existing commercial moorings including an associated ply for hire license if applicable can be transferred, but only as part of the sale of a business as a going concern to a new operator, as they are considered as an integral part of the associated business, and this will normally include the existing vessel. Harbour Masters approval will be required and a transfer fee payable. Approval will depend on the Harbour Master being satisfied that the new operation is suitable and appropriate for the Harbour.

2.2.4 If the business is not sold as a going concern, then the mooring is not transferable and will not be renewed.

2.2.5 Any new commercial moorings allocated by the Council from the waiting list will be offered on the basis that they are returned to the Council on cessation of the business and are not transferable.

A maximum period of one year from the date of allocation will be allowed to enable the new operator to obtain the necessary certification after which the applicant will be required to reapply.

2.3.7 The Council will support a wider range of commercial activities, for example ferry service along the Jurassic coast, and larger visiting passenger vessels.

2.4 Ferry service and water taxi

For this Policy a ferry service or water taxi is defined as a service that picks up passengers from one Harbour (departure Harbour) and they get dropped off at another Harbour (destination Harbour). In this case the operator is only required to hold one Ply for Hire License for either departure or destination Harbour. This is different to where a passenger gets on and off at the same Harbour (the departure Harbour), which is defined as a pleasure trip and requires Ply for Hire license specific for the departure Harbour.

2.5 Waiting list
